

## GTD-5000 Non Flame proof Type interference gas filtering gas detector

| Application of anti-malfunction algorithm to interference gas (Ethanol, FC-3283, IPA) | Fast response speed by applying new infrared measurement principle | Built-in high-performance pump to detect gas leakage quickly | Built-in automatic flow control with flow sensor | Built-in self-diagnosis function | Application of proven detection principle with stable quality and service life | Color graphic 1: 1 interactive parameter setting using LCD | 4-20mA (Current source or Sink) output | Easy to install monitoring system by RS-485 Modbus and PoE communication | Two-stage alarm, one fault indication and relay contact output | Built-in Data & Event log function | Calibration and maintenance by one-man |

Sensor Cartridge

### SPECIFICATION

※ Specifications are subject to be changed without prior notice.

| NON FLAME PROOF TYPE INTERFERENCE GAS FILTERING GAS DETECTOR |  |   |                                    |
|--|--|---|------------------------------------|
| Model  | GTD-5000   |   |                                    |
| Measuring gas  | Freon gas  | Flammable gas   | Toxic gases ( COS, TEOS )          |
| Measuring type   | Auto Sampling type   |   |                                    |
| Measuring method   | Infra - red  |   |                                    |
| Measuring range  | 0~2000ppm  | 0~5000ppm, 0~100% LEL   | refer to Toxic Gas Measuring Range |
| Response time  | < 10sec / 90% scale  |   |                                    |
| Accuracy   | ±3% / Full Scale   |   |                                    |
| Parameter control  | Front switch (calibration, maintenance, alarm setting)             |   |                                    |
| Operation mode display                                       | 4-LED (Power, 2-stage alarm, 1-trouble)                            |   |                                    |
| Measuring value display                                      | Color graphic LCD display ( Gas value, Gas name, Flow, Error etc.) |   |                                    |
| Alarm signal output  | 5A@250VAC / 3-SPST relay contact(2stage alarm, 1 trouble)          |   |                                    |
| Output signal  | Analog output : 4-20mA DC  | Digital output : RS-485 Modbus / PoE (Power over Ethernet) (Option) |                                    |
| Sampling method  | Diaphragm Pump   |   |                                    |
| Sampling line  | OD 1/4 "(Standard)   |   |                                    |
| Flow rate  | 100 ~ 1000 ml/min ( Normal 500ml/min)                              |   |                                    |
| Material   | front (Poly carbonate), Sides (Steel)                              |   |                                    |
| Conduit connection   | Cable gland (PG-16)  |   |                                    |
| Mounting type  | Wall mount   |   |                                    |
| Operating temperature  | -10℃ ~ +50℃  |   |                                    |
| Operating humidity   | 5 to 99% RH (Non-condensing)                                       |   |                                    |
| Dimensions   | 70(W) × 144(H) × 160(D) mm   |   |                                    |
| Weight   | 1.9kg  |   |                                    |
| CERTIFICATION  |  |   |                                    |
| CE / CPA   | Refer to website   |   |                                    |
